## **Congratulations on taking the first step toward achieving success!!**

### **Why I wrote and compiled this ebook ...**

Because I know how you feel. The burning desire for success and the determination you have to achieve it. The rich knowledge and resources provided in this ebook had been read personally by me, and I had benefited from it. I guess, all the featured successful men in the ebook don't have to be introduced anymore as I'll assume that you would have heard of them. If you do not know about them yet, just type their name in the search engine and you will find them.

I will only recommend authors and coaches whom I know from my personal experience who are successful and inspirational.

If you sell the product in which you believe in or you have benefited from personally, you will be a very successful person. I'll always prefer to promote the products/services that I had used, reviewed, joined or read before.

We live in abundance of wealth today. There is no limit to our earnings; we have the capacity to earn extraordinary income if we are determined to achieve it. What is most important is how we deliver our own self to others. If we give our best capability, the successful result we want will come to us ultimately. This is the law of Universal Abundance that I have learned throughout the years.

You can distribute this ebook for FREE. You probably had received this ebook from a friend or by subscribing to my e-zine, eSuccessMastery Success Motivational Resources E-zines. <http://www.esuccessmastery.com>

# Anthony Robbins

I believe life is constantly testing us for our level of commitment, and life's greatest rewards are reserved for those who demonstrate a never-ending commitment to act until they achieve. This level of resolve can move mountains, but it must be constant and consistent. As simplistic as this may sound, it is still the common denominator separating those who live their dreams from those who live in regret.

*Anthony Robbins*

I've come to believe that all my past failure and frustration were actually laying the foundation for the understandings that have created the new level of living I now enjoy.

*Anthony Robbins*

The path to success is to take massive, determined action.

*Anthony Robbins*

It is not what we get. But who we become, what we contribute... that gives meaning to our lives.

*Anthony Robbins*

Most people have no idea of the giant capacity we can immediately command when we focus all of our resources on mastering a single area of our lives.

*Anthony Robbins*

Once you have mastered time, you will understand how true it is that most people overestimate what they can accomplish in a year - and underestimate what they can achieve in a decade!

*Anthony Robbins*

The path to success is to take massive, determined action.

*Anthony Robbins*

You see, in life, lots of people know what to do, but few people actually do what they know. Knowing is not enough! You must take action.

*Anthony Robbins*

Action is the foundational key to all success.

*Anthony Robbins*

I've come to believe that all my past failure and frustrations were actually laying the foundation for the understandings that have created the new level of living I now enjoy.

*Anthony Robbins*

It's not what's happening to you now or what has happened in your past that determines who you become. Rather, it's your decisions about what to focus on, what things mean to you, and what you're going to do about them that will determine your ultimate destiny.

*Anthony Robbins*

Put yourself in a state of mind where you say to yourself, 'Here is an opportunity for you to celebrate like never before, my own power, my own ability to get myself to do whatever is necessary.'

*Anthony Robbins*

Quality questions create a quality life. Successful people ask better questions, and as a result, they get better answers.

Success in life is the result of good judgment. Good judgment is usually the result of experience. Experience is usually the result of bad judgement.

*Anthony Robbins*

What we can or cannot do, what we consider possible or impossible, is rarely a function of our true capability. It is more likely a function of our beliefs about who we are.

*Anthony Robbins*

The truth of the matter is that there's nothing you can't accomplish if:

*Anthony Robbins*

Beliefs have the power to create and the power to destroy. Human beings have the awesome ability to take any experience of their lives and create a meaning that disempowers them or one that can literally save their lives.

*Anthony Robbins*

I've continued to recognize the power individuals have to change virtually anything and everything in their lives in an instant. I've learned that the resources we need to turn our dreams into reality are within us, merely waiting for the day when we decide to wake up and claim our birthright.

*Anthony Robbins*

We are the only beings on the planet who lead such rich internal lives that it's not the events that matter most to us, but rather, it's how we interpret those events that will determine how we think about ourselves and how we will act in the future.

*Anthony Robbins*

You see, it's never the environment; it's never the events of our lives, but the meaning we attach to the events -- how we interpret them -- that shapes who we are today and who we'll become tomorrow.

*Anthony Robbins*

It's not the events of our lives that shape us, but our beliefs as to what those events mean.

*Anthony Robbins*

I believe life is constantly testing us for our level of commitment, and life's greatest rewards are reserved for those who demonstrate a never-ending commitment to act until they achieve. This level of resolve can move mountains, but it must be constant and consistent. As simplistic as this may sound, it is still the common denominator separating those who live their dreams from those who live in regret.

*Anthony Robbins*

One reason so few of us achieve what we truly want is that we never direct our focus; we never concentrate our power. Most people dabble their way through life, never deciding to master anything in particular.

*Anthony Robbins*

If you do what you've always done, you'll get what you've always gotten.

*Anthony Robbins*

Take control of your consistent emotions and begin to consciously and deliberately reshape your daily experience of life.

*Anthony Robbins*

You are now at a crossroads. This is your opportunity to make the most important decision you will ever make. Forget your past. Who are you now? Who have you decided you really are now? Don't think about who you have been. Who are you now? Who have you decided to become? Make this decision consciously. Make it carefully. Make it powerfully.

*Anthony Robbins*

All personal breakthroughs begin with a change in beliefs. So how do we change? The most effective way is to get your brain to associate massive pain to the old belief. You must feel deep in your gut that not only has this belief cost you pain in the past, but it's costing you in the present and, ultimately, can only bring you pain in the future. Then you must associate tremendous pleasure to the idea of adopting a new, empowering belief.

*Anthony Robbins*

It is in your moments of decision that your destiny is shaped.

*Anthony Robbins*

It's not what's happening to you now or what has happened in your past that determines who you become. Rather, it's your decisions about what to focus on, what things mean to you, and what you're going to do about them that will determine your ultimate destiny.

*Anthony Robbins*

More than anything else, I believe it's our decisions, not the conditions of our lives, that determine our destiny.

*Anthony Robbins*

The most important thing you can do to achieve your goals is to make sure that as soon as you set them, you immediately begin to create momentum. The most important rules that I ever adopted to help me in achieving my goals were those I learned from a very successful man who taught me to first write down the goal, and then to never leave the site of setting a goal without first taking some form of positive action toward its attainment.

*Anthony Robbins*

You see, in life, lots of people know what to do, but few people actually do what they know. Knowing is not enough! You must take action.

*Anthony Robbins*

Your life changes the moment you make a new, congruent, and committed decision.

*Anthony Robbins*

Goals are a means to an end, not the ultimate purpose of our lives. They are simply a tool to concentrate our focus and move us in a direction. The only reason we really pursue goals is to cause ourselves to expand and grow. Achieving goals by themselves will never make us happy in the long term; it's who you become, as you overcome the obstacles necessary to achieve your goals, that can give you the deepest and most long-lasting sense of fulfillment.

*Anthony Robbins*

You clearly decide what it is that you're absolutely committed to achieving,

1. You're willing to take massive action,
2. You notice what's working or not, and
3. You continue to change your approach until you achieve what you want, using whatever life gives you along the way.

*Anthony Robbins*

We will act consistently with our view of who we truly are, whether that view is accurate or not.

*Anthony Robbins*

If you can't, you must. If you must, you can.

*Anthony Robbins*

Any time you sincerely want to make a change, the first thing you must do is to raise your standards. When people ask me what really changed my life eight years ago, I tell them that absolutely the most important thing was changing what I demanded of myself. I wrote down all the things I would no longer accept in my life, all the things I would no longer tolerate, and all the things that I aspired to becoming.

*Anthony Robbins*

# Stephen Covey

Between stimulus and response, one has the freedom to choose.

*Dr. Stephen Covey*

Don't argue for other people's weaknesses. Don't argue for your own. When you make a mistake, admit it, correct it, and learn from it--immediately.

*Dr. Stephen Covey*

Every human has four endowments- self awareness, conscience, independent will and creative imagination. These give us the ultimate human freedom... The power to choose, to respond, to change.

*Dr. Stephen Covey*

Happiness can be defined, in part at least, as the fruit of the desire and ability to sacrifice what we want now for what we want eventually.

*Dr. Stephen Covey*

If you're proactive, you don't have to wait for circumstances or other people to create perspective expanding experiences. You can consciously create your own.

*Dr. Stephen Covey*

Live out of your imagination, not your history.

*Dr. Stephen Covey*

Many people seem to think that success in one area can compensate for failure in other areas. But can it really?...True effectiveness requires balance.

*Dr. Stephen Covey*

Our character is basically a composite of our habits. Because they are consistent, often unconscious patterns, they constantly, daily, express our character.

*Dr. Stephen Covey*

Without involvement, there is no commitment. Mark it down, asterisk it, circle it, underline it. No involvement, no commitment.

*Dr. Stephen Covey*

Management works in the system. Leadership works on the system.

*Dr. Stephen Covey*

Effective people are not problem-minded; they're opportunity minded. They feed opportunities and starve problems.

*Dr. Stephen Covey*

One of the best ways to educate our hearts is to look at our interaction with other people, because our relationships with others are fundamentally a reflection of our relationship with ourselves.

*Dr. Stephen Covey*

Begin with the end in mind.

*Dr. Stephen Covey*

Paradigms are powerful because they create the lens through which we see the world.

*Dr. Stephen Covey*

Each of us tends to think we see things as they are, that we are objective. But this is not the case. We see the world, not as it is, but as we are - or as we are conditioned to see it.

*Dr. Stephen Covey*

# Brian Tracy

Disciplining yourself to do what you know is right and important, although difficult, is the highroad to pride, self-esteem, and personal satisfaction.

*Brian Tracy*

I've found that luck is quite predictable. If you want more luck, take more chances. Be more active. Show up more often.

*Brian Tracy*

All successful people men and women are big dreamers. They imagine what their future could be, ideal in every respect, and then they work every day toward their distant vision, that goal or purpose.

*Brian Tracy*

If you wish to achieve worthwhile things in your personal and career life, you must become a worthwhile person in your own self-development.

*Brian Tracy*

Just as your car runs more smoothly and requires less energy to go faster and farther when the wheels are in perfect alignment, you perform better when your thoughts, feelings, emotions, goals, and values are in balance.

*Brian Tracy*

Look for the good in every person and every situation. You'll almost always find it.

*Brian Tracy*

Develop an attitude of gratitude, and give thanks for everything that happens to you, knowing that every step forward is a step toward achieving something bigger and better than your current situation.

*Brian Tracy*

Never complain, never explain. Resist the temptation to defend yourself or make excuses.

*Brian Tracy*

Every minute you spend in planning saves 10 minutes in execution; this gives you a 1,000 percent Return on Energy!

*Brian Tracy*

Develop the winning edge; small differences in your performance can lead to large differences in your results.

*Brian Tracy*

Excellence is not a destination; it is a continuous journey that never ends.

*Brian Tracy*

Everything you do is triggered by an emotion of either desire or fear.

*Brian Tracy*

Successful people are always looking for opportunities to help others. Unsuccessful people are always asking, "What's in it for me?"

*Brian Tracy*

The act of taking the first step is what separates the winners from the losers.

*Brian Tracy*

If you envy successful people, you create a negative force field of attraction that repels you from ever doing the things that you need to do to be successful. If you admire successful people, you create a positive force field of attraction that draws you toward becoming more and more like the kinds of people that you want to be like.

*Brian Tracy*

Imagine no limitations; decide what's right and desirable before you decide what's possible.

*Brian Tracy*

No one lives long enough to learn everything they need to learn starting from scratch. To be successful, we absolutely, positively have to find people who have already paid the price to learn the things that we need to learn to achieve our goals.

*Brian Tracy*

Your biggest opportunity probably lies under your own feet, in your current job, industry, education, experience or interests.

*Brian Tracy*

The only real limitation on your abilities is the level of your desires. If you want it badly enough, there are no limits on what you can achieve.

*Brian Tracy*

The more you seek security, the less of it you have. But the more you seek opportunity, the more likely it is that you will achieve the security that you desire.

*Brian Tracy*

A clear vision, backed by definite plans, gives you a tremendous feeling confidence and personal power.

*Brian Tracy*

Always choose the future over the past. What do we do now?

*Brian Tracy*

Optimism is the one quality more associated with success and happiness than any other.

*Brian Tracy*

Today the greatest single source of wealth is between your ears.

*Brian Tracy*

The way you give your name to others is a measure of how much you like and respect yourself.

*Brian Tracy*

The ability to discipline yourself to delay gratification in the short term in order to enjoy greater rewards in the long term, is the indispensable prerequisite for success.

*Brian Tracy*

It doesn't matter where you are coming from. All that matters is where you are going.

*Brian Tracy*

Disciplining yourself to do what you know is right and important, although difficult, is the highroad to pride, self-esteem, and personal satisfaction.

*Brian Tracy*

Whatever you believe with feeling becomes your reality.

*Brian Tracy*

You cannot control what happens to you, but you can control your attitude toward what happens to you, and in that, you will be mastering change rather than allowing it to master you.

*Brian Tracy*

The more credit you give away, the more will come back to you. The more you help others, the more they will want to help you.

*Brian Tracy*

Success equals goals; all else is commentary.

*Brian Tracy*

Your decision to be, have and do something out of ordinary entails facing difficulties that are out of the ordinary as well. Sometimes your greatest asset is simply your ability to stay with it longer than anyone else.

*Brian Tracy*

Communication is a skill that you can learn. It's like riding a bicycle or typing. If you're willing to work at it, you can rapidly improve the quality of very part of your life.

*Brian Tracy*

# Jim Rohn

Failure is not a single, cataclysmic event. You don't fail overnight. Instead, failure is a few errors in judgment, repeated every day.

*Jim Rohn*

Learn to help people with more than just their jobs: help them with their lives.

*Jim Rohn*

Motivation alone is not enough. If you have an idiot and you motivate him, now you have a motivated idiot.

*Jim Rohn*

Success is 20% skills and 80% strategy. You might know how to read, but more importantly, what's your plan to read?

*Jim Rohn*

Success is not so much what we have as it is what we are.

*Jim Rohn*

Success is not to be pursued; it is to be attracted by the person we become.

*Jim Rohn*

The best motivation is self-motivation. The guy says, "I wish someone would come by and turn me on." What if they don't show up? You've got to have a better plan for your life.

*Jim Rohn*

Asking is the beginning of receiving. Make sure you don't go to the ocean with a teaspoon. At least take a bucket so the kids won't laugh at you.

*Jim Rohn*

Either you run the day or the day runs you.

*Jim Rohn*

Formal education will make you a living; self-education will make you a fortune.

*Jim Rohn*

You must constantly ask yourself these questions: Who am I around? What are they doing to me? What have they got me reading? What have they got me saying? Where do they have me going? What do they have me thinking? And most important, what do they have me becoming? Then ask yourself the big question: Is that okay? Your life does not get better by chance, it gets better by change.

*Jim Rohn*

Attitude is your acceptance of the natural laws, or your rejection of the natural laws.

*Jim Rohn*

If you don't like how things are, change it! You're not a tree.

*Jim Rohn*

Success is doing ordinary things extraordinarily well.

*Jim Rohn*

The difficulties you meet will resolve themselves as you advance. Proceed, and light will dawn, and shine with increasing clearness on your path.

*Jim Rohn*

The major value in life is not what you get. The major value in life is what you become.

*Jim Rohn*

To solve any problem, here are three questions to ask yourself: First, what could I do? Second, what could I read? And third, who could I ask?

*Jim Rohn*

You must take personal responsibility. You cannot change the circumstances, the seasons, or the wind, but you can change yourself. That is something you have charge of.

*Jim Rohn*

# Mark Victor Hansen

Now is the only time there is. Make your now wow, your minutes miracles, and your days pay. Your life will have been magnificently lived and invested, and when you die you will have made a difference.

*Mark Victor Hansen*

End your day by privately looking directly into your eyes in the mirror and saying, 'I love you!' Do this for thirty days and watch how you transform.

*Mark Victor Hansen*

Your belief determines your action and your action determines your results, but first you have to believe.

*Mark Victor Hansen*

The more goals you set - the more goals you get.

*Mark Victor Hansen*

Predetermine the objectives you want to accomplish. Think big, act big and set out to accomplish big results.

*Mark Victor Hansen*

With vision, every person, organization and country can flourish. The Bible says, 'Without vision we perish.'

*Mark Victor Hansen*

Big goals get big results. No goals gets no results or somebody else's results. Every liability is just an asset in hiding.

*Mark Victor Hansen*

Focused mind power is one of the strongest forces on earth.

*Mark Victor Hansen*

Predetermine the objectives you want to accomplish. Think big, act big and set out to accomplish big results.

*Mark Victor Hansen*

Set too many goals and keep adding more goals. Goals have a tendency to be realized all at once.

*Mark Victor Hansen*

The majority of people meet with failure because they lack the persistence to create new plans to take the place of failed plans.

*Mark Victor Hansen*

Thoughts and ideas are the source of all wealth, success, material gain, all great discoveries, inventions and achievements.

*Mark Victor Hansen*

You don't become enormously successful without encountering some really interesting problems.

*Mark Victor Hansen*

Goals are new, forward-moving objectives. They magnetize you towards them. It's time to stop tiptoeing around the pool and jump into the deep end, head first. It's time to think big, want more and achieve it all!

*Mark Victor Hansen*

# Dale Carnegie

Be more concerned with your character than with your reputation. Your character is what you really are while your reputation is merely what others think you are.

*Dale Carnegie*

Do the hard jobs first. The easy jobs will take care of themselves.

*Dale Carnegie*

Don't be afraid to give your best to what seemingly are small jobs. Every time you conquer one it makes you that much stronger. If you do the little jobs well, the big ones will tend to take care of themselves.

*Dale Carnegie*

People rarely succeed unless they have fun in what they are doing.

*Dale Carnegie*

Today is life-the only life you are sure of. Make the most of today. Get interested in something. Shake yourself awake. Develop a hobby. Let the winds of enthusiasm sweep through you. Live today with gusto.

*Dale Carnegie*

Develop success from failures. Discouragement and failure are two of the surest stepping stones to success.

*Dale Carnegie*

Do the thing you fear to do and keep on doing it... that is the quickest and surest way ever yet discovered to conquer fear.

*Dale Carnegie*

If you believe in what you are doing, then let nothing hold you up in your work. Much of the best work of the world has been done against seeming impossibilities. The thing is to get the work done.

*Dale Carnegie*

It isn't what you have, or who you are, or where you are, or what you are doing that makes you happy or unhappy. It is what you think about.

*Dale Carnegie*

Most of the important things in the world have been accomplished by people who have kept on trying when there seemed to be no hope at all.

*Dale Carnegie*

Remember happiness doesn't depend upon who you are or what you have; it depends solely on what you think.

*Dale Carnegie*

Success is getting what you want. Happiness is wanting what you get.

*Dale Carnegie*

Take a chance! All life is a chance. The man who goes farthest is generally the one who is willing to do and dare.

*Dale Carnegie*

The successful man will profit from his mistakes and try again in a different way.

*Dale Carnegie*

# NAPOLEON HILL

The best job goes to the person who can get it done without passing the buck or coming back with excuses.

*Napoleon Hill*

Action is the real measure of intelligence.

*Napoleon Hill*

Do it now! can affect every phase of your life. It can help you do the things you should do but don't feel like doing. It can keep you from procrastinating when an unpleasant duty faces you. But it can also help you do those things that you want to do. It helps you seize those precious moments that, if lost, may never be retrieved.

*Napoleon Hill*

Do not wait; the time will never be "just right." Start where you stand, and work with whatever tools you may have at your command, and better tools will be found as you go along.

*Napoleon Hill*

The world has the habit of making room for the man whose actions show that he knows where he is going.

*Napoleon Hill*

Every adversity, every failure, every heartache carries with it the seed of an equal or greater benefit.

*Napoleon Hill*

What ever the mind of man can conceive and believe, it can achieve.

*Napoleon Hill*

The jack-of-all-trades seldom is good at any. Concentrate all of your efforts on one definite chief aim.

*Napoleon Hill*

The strongest oak of the forest is not the one that is protected from the storm and hidden from the sun. It's the one that stands in the open where it is compelled to struggle for its existence against the winds and rains and the scorching sun.

Effort only fully releases its reward after a person refuses to quit.

*Napoleon Hill*

Who said it could not be done? And tell me what great victories does he have to his credit which qualifies him to judge what can and can't be accomplished.

*Napoleon Hill*

Desire is the starting point of all achievement, not a hope, not a wish, but a keen pulsating desire which transcends everything.

*Napoleon Hill*

Cherish your visions and your dreams as they are the children of your soul; the blueprints of your ultimate achievements.

*Napoleon Hill*

When defeat comes, accept it as a signal that your plans are not sound, rebuild those plans, and set sail once more toward your coveted goal.

*Napoleon Hill*

Hold a picture of yourself long and steadily enough in your mind's eye, and you will be drawn toward it.

If you do not conquer self, you will be conquered by self.

The ladder of success is never crowded at the top.

*Napoleon Hill*

Until you have learned to be tolerant with those who do not always agree with you; until you have cultivated the habit of saying some kind word of those whom you do not admire; until you have formed the habit of looking for the good instead of the bad there is in others, you will be neither successful nor happy.

*Napoleon Hill*

You must get involved to have an impact. No one is impressed with the won-lost record of the referee.

*Napoleon Hill*

The battle is all over except the "shouting" when one knows what is wanted and has made up his mind to get it, whatever the price may be.

*Napoleon Hill*

There is one quality which one must possess to win, and that is definiteness of purpose, the knowledge of what one wants, and a burning desire to possess it.

*Napoleon Hill*

Every person who wins in any undertaking must be willing to cut all sources of retreat. Only by doing so can one be sure of maintaining that state of mind known as a burning desire to win -- essential to success.

It is literally true that you can succeed best and quickest by helping others to succeed.

*Napoleon Hill*

# Robert T. Kiyosaki

*Please take note, Robert Kiyosaki's quotes are based from his Rich Dad book series. If you have not read his books yet, you may not catch some of his meanings behind the quotes. I would extremely advise you to read Rich Dad Poor Dad. I had personally met up with Robert last time and learn a lot from his books. By the way, you can get his book at bookstores near your place.*

Your most expensive advice is the free advice you receive from your financially struggling friends or relatives.

*Robert Kiyosaki*

Average investors are on the outside trying to look into the inside of the company or property they are investing in.

*Robert Kiyosaki*

It's the investor who is risky, not the investment.

*Robert Kiyosaki*

The idea of working all your life, saving, and putting money into a retirement account is a very slow plan.

*Robert Kiyosaki*

If you don't first handle fear and desire, and you get rich, you'll only be a high-pay slave.

*Robert Kiyosaki*

To gain more abundance a person needs more skills and needs to be more creative and cooperative.

*Robert Kiyosaki*

A business with a defined mission, a determined leader, and a qualified and unified team begins to take shape as the sections of the B-I Triangle come together. This is when the B-I Triangle becomes three-dimensional and turns into a tetrahedron.

*Robert Kiyosaki*

One of the reasons I do not need a job or a paycheck is because rich dad trained me to make money from nothing.

As you increase the number of investor controls you possess, you continue to reduce your risk in the investment.

*Robert Kiyosaki*

The unique ability to take decisive action while maintaining focus on the ultimate mission is what defines a true leader.

*Robert Kiyosaki*

The more simple you can make this subject (investing), the richer you can become while reducing risk. But the challenge for most people is to invest the time.

*Robert Kiyosaki*

Instead of labeling and discriminating against one or the other, we need to learn to blend our gifts and complement our geniuses.

*Robert Kiyosaki*

There are many people who have big plans but their big plans never come true. The reason is, too many people have big plans but fail to keep their small agreements.

*Robert Kiyosaki*

By asking the question "How can I afford it?" your brain is put to work.

*Robert Kiyosaki*

Just as a fisherman must watch the ebb and flow of the tides, an investor and businessperson must be keenly aware of the subtle shifts in cash flow.

*Robert Kiyosaki*

You can invest with less risk and make more money in the stock market. All you have to do is not be an average investor. Intelligence is the ability to make finer distinctions.

*Robert Kiyosaki*

So where in the old economy, content was king, in the new economy, context is king.

*Robert Kiyosaki*

The biggest challenge you have is to challenge your own self-doubt and your laziness.

*Robert Kiyosaki*

The word accounting comes from the word accountability. If you are going to be rich, you need to be accountable for your money.

*Robert Kiyosaki*

If you want to retire young and retire rich, it is very important that your money be like a bird dog, going out every day and bringing home more and more assets.

*Robert Kiyosaki*

The boundaries of a person's reality often do not change until that person forsakes what he or she feels confident in and then goes blindly with faith.

*Robert Kiyosaki*

One of the main reasons people are not rich is that they worry too much about things that might never happen.

# A Little Inspirational Story To Share ...

## A Magic Lesson To Success

There was some time ago, in a city, there lived a couple who have a comfortable life. Both of them are living happily married. They have a secure job, own a house, car and those common needs you can imagine.

Basically, this couple does not need to worry much about their financial or relationship needs. But after living the same life style for years, they realized that their life seems to be so routine! It is so predictable that it seems like something is missing for both of them.

Everyday, they wake up in the morning, go to work, come back from work, go home, eat dinner (sometimes they have to dine outside) watch tv, wash car and go back to sleep. The normal, typical daily stuff. With the money they earned everyday, it would not be possible for them to go on vacation overseas a lot, go safaris in Africa or take flying lessons. You know, the lifestyle of the richer group for whom spending money is not a main concern.

What is missing!!? Their passion in life....

This is because they have not sought the passion in their life and with their current financial situation, this is the type of enjoyment they can afford to spend on.

So one day, the wife voiced out that she has had enough; enough is enough of this meaningless life, they need to find their passion in life, to enjoy life to the fullest and be better off financially. They know they can achieve more, but do not know why they are not achieving more. Achieving does not mean that they have to be millionaires, but in every other aspects of life. The husband agreed, and so they set off to find a better lifestyle and seek the passion for their life.

And amazingly, the husband is told by a successful friend of his, that there is a magical success guru living in a far, far away land, on top of the highest mountain where there is a cave. The guru lives in that cave.

The husband is excited with this news, and so after much discussion with his wife, they make a decision. They decide to seek advice from the guru for the secrets of success. They take their company leaves, save some money for traveling and off they go.

After months of searching high and low with their determination to seek the answer, finally they find the mountain where the guru lives.

Excited as they are, they make their climbs to the peak of the mountain. It is very hard and tedious, but it is worth the effort. Finally, they are at the peak.

Overseeing the view of the world from the top of the mountain, they feel so confident and a peace of mind. Now, their task is to find the guru. The hard part is:

Where could he be? They think.

Suddenly, they see an old man, sitting at the end of the mountain rock. It seems very dangerous to sit there, because anyone can fall off anytime down the mountain and break all the bones. Of course, anyone who falls off will probably end up dead with broken bones.

So, the wife whispers to the guru, 'Excuse me, old man, are you the magical success guru that helps people to be successful?'

The guru seems not to be hearing her whisper. He is still sitting quietly at the end of the mountain rock without any movement.

The wife whispers again. Then, the old man turns around and stands up at the end of the mountain rock. This is even more dangerous now, because anyone can lose balance and fall off!

'Be careful, o'wise guru! You can fall down from the mountain rock if you stand so near at the end of the edge!' they warn.

But the guru simply ignores what they say. In fact, he replies, 'If you want to speak with me and learn from me, you have to come closer. Come and stand beside me at the end of the mountain rock, my students-to-be.'

If they want to learn the secrets of success from the guru, they have to follow his instruction. With a lot of fear, they come close to the guru. Now, the Guru is standing in the middle with both of them standing on the left and right side of the Guru. All 3 of them are facing outwards of the mountain, they are facing the down slope of the mountain over looking the top of the world . They can fall down the mountain at any time if they are not careful. The husband's and wife's hearts are panting non-stop.

At this moment they feel so different, a feeling they never felt before, peace of mind and yet full of anxiety. Looking down the land, they feel really confident. And also a little bit afraid of falling off. It will break their bones if they fall down the mountain.

The husband is thinking, 'Now what?'

So, he asks the guru the million-dollar question,

'What is the secret of success, o'wise guru?'

The guru just smiles at them and replies, 'Look at the world beyond below, from here.'

Following the instruction, both of them did as instructed, looking at the world from the top of the mountain. They can see almost everything from the peak of the mountain.

Suddenly, the guru pushes them off the mountain peak!! Unbelievable!

(Sad conclusion??)

Both of them fall.

When they fall, with so much fear of death, suddenly, they realize that they can fly! And they fly..... because they have forgotten that they can fly all this while.....

-----The End-----

Please take some time to digest the meaning of the story above, and think what lessons are hidden behind the story.

Some people can 'fly' but they had forgotten how to 'fly'.  
So they forgot.

Some people completely do not know they can 'fly'.  
So they never did

Some people had 'flown' before, but forgot how to.  
So they never remembered.

Some people know they can fly, but never try because they are surrounded by F-E-A-R.  
So they quit.

Some people want to see others 'fly' first before they 'fly'.  
So they waited.

Some people wait for a mentor to teach them how to fly.  
So they waited.

Some people 'flew' before and fell down, so they claimed that 'flying' is dangerous and useless. So they whined and quitted.

**But**, some people are 'flying' everyday, looking from below the sky, overseeing everyone who is not 'flying' just because they took a step to fly.....

I had taken my 'flying' lessons and fell many times.  
But now, I have discovered my wings again.

Have you started 'flying' yet?
